

We are seeking a dedicated **Water Distribution Operator** to join our team and ensure the safe, reliable, and efficient delivery of clean water to our community. This role is vital in maintaining public health and supporting essential infrastructure.

Key Responsibilities

- Operate, maintain, and repair water distribution systems, including mains, valves, hydrants, and meters
- Monitor system performance and respond to service calls, leaks, and emergencies
- Perform routine inspections, flushing, and testing to ensure compliance with regulatory standards
- Maintain accurate records of work performed, system data, and reports
- Collaborate with other utility staff and contractors to support projects and system improvements

Qualifications

- High school diploma or equivalent; technical training in water systems preferred
- Valid driver's license (CDL may be required depending on jurisdiction)
- State-issued Water Distribution Operator certification (or ability to obtain within a set timeframe)
- Knowledge of water distribution systems, safety practices, and regulatory requirements
- Ability to work independently and as part of a team, with strong problem-solving skills

Benefits

- Competitive salary based on experience and certification level
- Health, dental, and vision insurance
- Retirement plan participation
- Paid time off and holidays
- Opportunities for professional development and certification advancement
